

## Truth in Savings Disclosure - Additional Disclosures about Specific Accounts

For Santa Clara County Federal Credit Union ("County Federal," "Credit Union," "we," "us") consumer accounts, your Truth in Savings account opening disclosure consists of this Truth in Savings Disclosure ("TIS Disclosure"), the Dividend Rate Schedule ("Rate Sheet," "Rate Schedule") and the Fee Schedule ("Fee Schedule"). If you open a Term Share Certificate account, you will receive a Share Certificate Receipt for that Certificate at the time of opening. The most recent versions of the TIS Disclosure, Dividend Rate Schedule, and Fee Schedule supplement your County Federal Membership and Account Agreement. In addition, your periodic account statements will inform you of the most recent information about your County Federal accounts, including dividends earned and annual percentage yields earned.

Please keep a copy of the current TIS Disclosure, Dividend Rate Schedule, and Fee Schedule with your records. If a term stated in the TIS Disclosures is inconsistent with a subsequent document of account terms that we provide you, the more recent document will control.

The term "share account" includes any account at County Federal, including Savings, Checking, Money Market, Certificate, and other accounts we may offer. We may refer to our share savings accounts as "Savings Accounts," our share draft accounts as "Checking Accounts," our money market share draft accounts as "Money Market Accounts," and our term share certificate accounts as "Certificates" in this TIS Disclosure and other County Federal documents you may receive.

### Common Features

#### Par Value

The par value of a County Federal share is \$25.

#### Advance Notice of Withdrawal

Except on checking accounts, we reserve the right to require at least seven and up to sixty days' advance notice before permitting you to withdraw funds. For Certificates, applicable early withdrawal penalties will be disclosed on the Share Certificate Receipt.

#### Rate Information

The Rate Schedule shows the most recent declared Dividend Rates ("DR") and Annual Percentage Yields ("APY") for consumer accounts other than Certificate Accounts. Quoted APYs assume credited dividends remain in the account and compound. Earlier withdrawal of credited dividends will reduce earnings. Fees may reduce earnings on dividend-bearing accounts.

The Dividend Rate ("DR") and Annual Percentage Yield ("APY") on all accounts except fixed-rate certificates may change at

any time and by any amount in the sole discretion of County Federal. County Federal may also change minimum balance requirements, dividend periods, and dividend tiers at its sole discretion.

#### Dividend Period

Dividend-bearing County Federal accounts have monthly or quarterly dividend periods.

A monthly dividend period runs from the first calendar day of the month through the last calendar day of the month. For example, the first monthly dividend period of the calendar year is from January 1 through January 31. All other monthly dividend periods follow this same pattern.

A quarterly dividend period runs from the first calendar day of the quarter through the last calendar day of the quarter. For example, the first quarterly dividend period of the calendar year is from January 1 through March 31.

When an account is closed, any accrued interest is posted prior to closing the account.

#### Compounding and Crediting

Depending on whether your dividend-bearing account has a monthly or quarterly dividend period, dividends will be compounded and posted monthly or quarterly.

For example, monthly: In January, dividends compound and post on January 31.

For example, quarterly: For the first quarter of the calendar year, dividends compound and post on March 31.

When an account is closed, any accrued dividends are posted prior to closing the account.

#### Dividend Calculation: Average Daily Balance Method

The average daily balance method is used to calculate dividends on all dividend-bearing County Federal accounts. This method applies a periodic rate to the average daily balance in the account for the dividend period. The average daily balance is determined by adding the balances for each day of the dividend period and dividing by the number of days in the dividend period. Unless identified as a "Tiered-Rate Account," a dividend-bearing account will earn the DR for which the daily balance qualifies on the entire account balance.

If the average daily balance falls below any required minimum, dividends will not be paid for that dividend period.

### Tiered Rate Account

For a Tiered-Rate Account, each balance tier will earn a different dividend rate (DR). For example, if a Tiered-Rate Account pays a DR of 0.50% on balances up to \$5,000 and 0.10% on balances of \$5,000.01 and up, and the account balance is \$10,000, the first \$5,000 will earn dividends at 0.50% and the second \$5,000 will earn dividends at 0.10%, resulting in an APY of 0.30% on the entire \$10,000 balance.

### Accrual of Dividends

Dividends will begin to accrue on all deposits the business day funds are deposited into the account and are earned from the day of deposit to the day of withdrawal or account closure.

Except on fixed-rate certificate accounts, dividends are paid out of current income and available earnings and are not guaranteed.

## Available Accounts

### Share Savings

#### Regular, Subsidiary Savings, Custodial, Trust, Organization

To establish and maintain membership and be eligible to apply for and maintain other County Federal services, you must open and maintain a Regular Share Savings Account.

<b>Share Savings</b>	Includes Regular, Subsidiary, Trust, and Organization Savings Accounts
